

WEEK FOR WOMAN'S CLUBS

State Federation Meeting at Lincoln Draws Feminine Attention. MUCH IMPORTANT WORK IS SCHEDULED. Delegates Look Forward to an Interesting and Profitable as Well as a Very Busy Convention.

The annual meeting of the State Federation of Women's Clubs which opens in Lincoln today and continues until Friday is at present monopolizing the attention of the women of Nebraska. For weeks the people of Lincoln have been preparing for the entertainment of their guests and have taken as their pattern the convention of the General Federation recently held at Milwaukee.

As it is the custom in the federation for officers to serve two years and the present officers are serving their second term, the election seems to be a matter of secondary concern to the majority. There is little doubt that Mrs. Apperson of Teunish, the president-elect, will be unanimously re-elected, if she will consent.

The chief aim of the meeting will be to advance the work of the five standing committees of the departments of art, music, education, social science and domestic science, and each of these committees has selected as its representative on the program this year the woman most competent to present its work.

After the department work the subject of chief interest is that of state traveling libraries. The plan of having a traveling library in an institution has long been realized in Nebraska and for several years the subject has been agitated by the Woman's Club.

This week Mrs. Stoutenough of Westmoreland will present a very strong paper before the meeting on this subject. She has the cooperation of the clubs of the state to advance the work and secure the passage of a bill in the legislature that will appropriate a sum sufficient to institute and support a public state traveling library.

Soberly the meeting will be brilliant. Though not less than six of Lincoln's most prominent families, with homes equipped for splendid entertainment, have requested the privilege of giving receptions to the delegates and visitors, the committee in charge accepted the invitation of Governor Poynter, as time would admit of but one such reception, and on Wednesday evening the executive mansion of the state will be thrown open to the club women of Nebraska and their friends.

Mrs. Ricketts, state chairman of correspondence, has been chosen to report on the "Business of the Biennial" and owing to her clearly defined views on reorganization, as she presented them at the Milwaukee convention, not a little interest is manifested in her report.

Jumped on a Penny Nail. The little daughter of Mr. N. Powell jumped on an inverted rake made of ten penny nails and thrust one nail entirely through her foot and a second one half way through Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Portland, Va.

Pain Balm is an antiseptic and heals such injuries without matting and in one-third the time required by the usual treatment. It is most widely known, however, as a cure for sprains and for the prompt relief it affords in cases of rheumatism.

PATRIOTIC LEAGUE MEETING. W. F. Gurley Speaks on the Important Issues of the Present Presidential Campaign.

The patriotic league meeting, which had been postponed from Saturday, was held at the rooms in the Millard building, evening with an audience of more than 100 present. The various candidates on the county and legislative tickets had been given special invitations to make themselves acquainted in person with most of them accepted.

The principal address of the evening was delivered by Mr. Gurley, he taking up the issues of the campaign and expounding them from the standpoint of republicanism. Mr. Gurley answered with effective arguments the appeals on which the populists ask support for Bryan and pointed out the benefits that have accrued to the nation under the republican policies put into effect through President McKinley's administration.

ON THE ROAD. All the time, eating irregularly, sleeping irregularly, exposed to every disease, bent in bad cooking or poor food; that's a summary of the traveling man's life. The result is "stomach trouble"; that general term which covers various forms and stages of disease of the organs of digestion and nutrition.

The traveling man can't avoid the troubles which spring from his business obligations. But he can avoid "stomach trouble." If Dr. Pierce's Golden Medical Discovery is used when the early symptoms of the derangement of the stomach manifest themselves, the cure will be quick and radical. But even if the disease has become chronic the "Discovery" will cure ninety-eight times out of every hundred if tried fairly and faithfully.

Mr. Ned Nelson, the celebrated Irish comedian and actor, writes: "We fulfilled an engagement of twelve weeks at the Grand Central Hotel, New York, and I had tried everything possible to cure my stomach trouble, but without success. I had a week while playing at B. P. Keith's Grand Opera House, Philadelphia, in the Nelson troupe, a professional friend advised me to try Dr. Pierce's Golden Medical Discovery. I tried it, and thank God, with good results." Free! Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps, to cover expense of mailing only. Send at once ten cent stamps for the book in paper cover, or 31 stamps for the same book cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

LOCAL POLITICAL CALENDAR

Tuesday, Oct. 9.—Sixth Ward Colored Republican club open air rally, Twenty-fourth and Spruce, Judge Dunham N. Vinsonhaller, S. C. Pratt and George E. Collins. Fifth Ward Republican club, Sixteenth and Locust, Edwin Lee S. Esselle. Eighth Ward Republican club, Wolf's hall, Twenty-second and Cumings streets, Hon. Charles H. Workman of Ohio.

Thursday, Oct. 11.—Rosewater-Hitchcock debate at the tent, Sixth Ward Young Men's Republican club, Twenty-fourth and Grand. Friday, Oct. 12.—South Omaha Third Ward Republican club, Evans' hall, Twenty-eighth and R, Judge R. S. Baker.

Democratic Meetings. Tuesday, Oct. 9.—Eighth Ward Bryan and Stevenson club, Wolf's hall, Twenty-second and Cumings. Fifth Ward Democratic club, McKenna's hall, Twelfth and Locust. Seventh Ward Bryan club, 1512 Park avenue.

Sixth Ward Bryan club, Idlewild hall. Friday, Oct. 12.—Bryan and Stevenson club, Twenty-fourth and N. South Omaha.

SIT DOWN ON COCK FIGHTING

American Authorities in Philippines Refuse to Suspend Favorable Diversion.

That the American authorities in the Philippines are doing what they can to abstain from any public or official recognition of vices common to that region is evidenced by numerous orders. One of the latest, a copy of which has been received in this city, deals with gambling, cock fighting and the opium habit. This order, to which the signature of John Green Ballance, chief assistant for the Department of Northern Luzon, is attached, is as follows:

ARTS OFFICERS FIRST DISTRICT, DEPARTMENT OF NORTHERN LUZON. OFFICE CHIEF ASSISTANT, VIGAN, P. I. Circular No. 14. The district commander has directed the publication of the following information in order to do his utmost to suppress some of the vices of this district. It has been the custom to maintain and license cock fighting and opium smoking.

All pueblos and municipalities are prohibited from maintaining, licensing or permitting to be maintained any public place or public resort for gambling, cock fighting, opium smoking or kindred vices, or allowing them to be carried on, in any street, road, square, park or other public place. Any alcalde, principal, councilor, chief of police, chief of police, or other official, who allows any of the above named vices to be carried on in a public place or building, or who knowingly permits any such public resort for any of the above named vices to be maintained within his jurisdiction, or who fails to do his utmost to suppress the same, shall, on conviction, be liable to a fine of from \$10 to \$100.

Any person who owns, maintains, operates or conducts any public place or public resort for gambling, cock fighting, opium smoking or kindred vices, or who practices any of them in a public place or building, shall, on conviction, be liable to a fine of from \$10 to \$100, and to imprisonment at hard labor from five to sixty days, or both. For a second offense the penalty shall be double.

This order will take effect on September 15, 1900. Any person who is tried by the alcalde, provincial judge or justice of the peace for the maintenance of these vices by the public authorities and all public exhibitions of them.

It is not expected by this order to change the moral nature of the people, but to change their moral nature so that they will be in accord with the ideas of modern civilization. The order must be placed on the good example, practical and teachings of the enlightened and educated people of the Philippines.

The prevalence of these vices has been a serious obstacle to the moral, social and material development of the Philippines. It is the duty of the American authorities to suppress the same, and their continuance will in the future prevent the civilization of the people among the people of modern civilization.

It is hoped that the educated classes will be more or less dependent on them for assistance in these vices, which the individuals and the community and do their duty to suppress them. The order must be placed on the good example, practical and teachings of the enlightened and educated people of the Philippines.

LOCAL BREVITIES. Charles John has been granted a building permit for a \$50 frame house at 181 North Eighteenth street.

Mrs. C. Elliott, aged 82, died at 419 South Twentieth street. Her remains were taken to Kearney for interment.

Anton Folek has been granted a building permit for a frame dwelling to be built at Fourteenth and Hickory streets at a cost of \$100.

The two-story frame dwelling at 104 South Thirteenth street, owned by Clement Chase and occupied by Mrs. Peterson, was damaged by fire to the extent of \$10 at 8:30 p. m. Monday.

A. Parsons of Beatrice, L. P. Southworth of Ravenna, W. F. Currie of Lincoln, H. E. Knapp of Fullerton, James Collins of St. Paul, Mass., and J. E. McLaughlin of G. P. Reynolds of Wynmore are state guests at the Murray.

Henry E. Stover and Ed G. Jones were appointed regular firemen at last night's meeting of the Firemen's association. Lieutenant Daily of the fire department, who is charged with being the most efficient fireman in the city, is on duty and his decision was reserved until additional testimony can be secured.

As contracts have been found who is willing to take the contract for permanent brick sidewalks, which was originally awarded to Patrick Ford, \$12 cents per square foot and was afterward repudiated, the city engineer has called on the contractor to bring any propositions and the Board of Public Works thought for a time that it would be impossible to get additional work said this fall.

Three political forecasts, arranged to suit different tastes, have been given out since the 1st of October. The first is based on the observations and opinions of New York Herald correspondents, the second comes from Joseph H. Manley, member of the republican national committee, the third from a party by the name of Johnson, assistant chairman of the democratic national committee, and has the approval of Chairman Jones. These forecasts are interesting, as well as amusing and instructive in equal proportions. They show a ratio of two to one on McKinley winning the race.

The New York Herald's forecast gives McKinley the states of California, Connecticut, Delaware, Illinois, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington, West Virginia, Wisconsin, Wyoming, making a total of 28 electoral votes, or a majority. For Bryan the states of Alabama, Arkansas, Colorado, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, Nevada, North Carolina, South Carolina, Tennessee, Texas, Utah, Virginia—a total of 165 votes. In the doubtful list are 21 votes—Idaho, Indiana, Montana. Mr. Manley claims 266 votes for McKinley, 112 for Bryan and is doubtful. His place Maryland in the McKinley column and puts Colorado, Idaho, Kentucky, Missouri, Montana, Nevada, Nebraska and Utah in the doubtful list. Mr. Manley does not put Indiana in either column, regarding it closer than any of the other states. Mr. Johnson, for the democrats, conceded

POPULISTS LEAVING BRYAN

Voters of the People's Party Object to Being Swallowed by Democrats. MRS. LEASE'S EXPERIENCE IN NEBRASKA

Four Weeks of Hard Campaigning Convince Her that the State's Redemption from the Blight of Fusion is at Hand.

After four weeks of unremitting labor in the populist districts of the state, Mrs. Mary Elizabeth Lease left this morning for Chicago. The results of her campaign have been so satisfactory that the republican state committee has asked for her presence during another two weeks and the national board will probably consent. Mrs. Lease has addressed herself chiefly to the populists, with whom she was associated in the days of the party's formation.

"Dozens of populists have said to me," remarked Mrs. Lease, "that they were with me in 1892 and they are with me still. There was not one of the forty meetings at which I spoke that did not have its converts. I spoke every evening and often during the afternoon and the crowds were always large and enthusiastic. The populists were almost as numerous as the republicans and I recognized a number of leaders whom I had met when I went as a delegate to the national populist convention, the first woman ever sent on such a mission. They were all ready to give up corn and wheat, with good prices waiting at the market and they want to keep them good. And when I spoke to the populists of the manner in which the fruits of fusion have been swallowed by the democrats I made a victim of every one."

"Four years ago I was sent from New York to interview Mr. Bryan for the World and I interviewed him first for that paper and second for myself. I could not appreciate either of them. He was a very interesting man and a very good politician. It has always made a bit when I remarked to an audience that in 1898 Bryan was a silver dollar and in 1900 he is a counterfeit dollar."

"From what I have observed in a month's close study of the state republican state and county managers are fully justified in being sanguine. "Kansas is no longer my home and I have not been in the state for five years, but I still know its conditions and its political conditions there. The fusion candidate for governor is in general disfavor throughout the state and the republican ticket, state and national, will win by more than 20,000 majority."

One interesting incident in Mrs. Lease's Nebraska campaign occurred at Ord, where a large crowd was gathered at the depot. She had made no arrangements to speak there and the train paused only a few minutes. Hundreds of voices called for Mrs. Lease and in answer to their importunities she promised to try to speak a few words to them on her return the next day.

The next day the crowd was larger, but the situation was changed. The train's schedule only allowed it to stop a few minutes in the town. The crowd laid friendly hands on conductor and engineer, however, and called Mrs. Lease to the platform. The officials pointed out that it was strictly against the rules for a political speaker to address a crowd from the platform, but the crowd turned a deaf ear and Mrs. Lease spoke for ten minutes. Then the officials were sent on their way to make up lost time by extra steam.

And Mrs. Lease had done what Theodore Roosevelt could not do—she had spoken from the car platform.

Bourke Cockran's Dates. Owing to the delay in the route Bourke Cockran's engagement in Omaha tonight is off and it is doubtful whether he will appear in the city at all. Mr. Cockran's throat is in a serious condition and his Kansas tour has been cancelled. The democratic committee think it probable that Mr. Cockran may reach the city Thursday, in which case the Rosewater-Hitchcock debate scheduled for that night would be postponed, as both meetings have been arranged for the Capitol avenue tent.

A slight alteration in the program of debates between Mr. Rosewater and Mr. Hitchcock has been made, the meeting at Grand Island on October 15 having been transferred to Fremont.

Reception to Miss Ferguson. The Young Women's Christian association gave its reception last evening to its new arrival, Miss Ferguson. There were some 200 present. After her formal introduction by Mrs. Harwood Miss Ferguson made a few remarks in which she set forth the purposes of the association and asked the aid and sympathy of all present. She was warmly welcomed by Mrs. W. Woodruff, who spoke of the plans of the association, and Miss Woodruff spoke of the association, a violin solo by Miss Louella Allen was greatly enjoyed by all. Refreshments were served. A game of basket ball, played by the teams of the association, was the most enjoyable feature of the evening.

Cattle Show at Kansas City. KANSAS CITY, Mo., Oct. 8.—A big combination sale and exhibit of fancy bred cows will be held at the fair grounds here on Friday and Saturday. The entries have been closed and 1500 head of cattle have been listed. The prizes offered amount to \$100,000. There will also be a combination exhibit and sale of Angora goats, West Virginia and Delaware sheep and other valuable stock. The show is under the direction of a joint committee representing the National Short-horn Breeders' and American American Hereford Breeders' association.

While the receipt of range cattle at the stock yards continues heavy, there has recently been a slight falling off in the shipments to market of fat cattle and hogs, and this accounts for the laying off of a number of men at the packing houses. Yesterday that is expected increased receipts of hogs and fat cattle within the next few days. The packing houses are expected to be able within the next ten days.

There is no strong, alarming drift of this character. It is a very real peril of the alternative of Bryanism, as embodied in the Chicago platform, has caused it to vanish. Nothing like a "ground swell" or a "tidal wave" of revolt can be detected.

"Nor is it now to be expected, if the people could be moved on this issue the movement would have begun earlier. There are no new arguments available to start it at this day. The whole case is presented long ago as plainly and forcibly as it is likely to be brought. Our judgment is that the people have settled the matter in their own minds and are unlikely to be shaken in their resolution by further argument, however brilliant and appealing."

Wyoming, a former Bryan state, is reasonably certain to join the republican column next month. Warden P. Noble, a republican man of Salt Lake City, while in Omaha a few days ago, declared that Wyoming would go republican, and that he was a supporter of Bryan on the free silver issue four years ago. This year he is for McKinley. He has extensive cattle and sheep interests in Wyoming and knows the sentiments of the people thoroughly. He says a large part of the republican supporters are now enthusiastic republicans. Cause, prosperity. The enhanced price of beef, mutton and wool have brought a revolution in political sentiment.

Betting odds in New York have advanced from 2 to 2 1/2 and 3 to 1 on McKinley, with very little democratic money in sight.

Setting odds in New York have advanced from 2 to 2 1/2 and 3 to 1 on McKinley, with very little democratic money in sight.

GORDON WANTS TO BE HEARD

Insists that He Can Convince the Council that His Course Has Been Right.

Police Judge Samuel J. Gordon appeared before the general committee meeting of the council yesterday afternoon and urged that the charges against him be dropped. He insisted that he could convince the council that his course has been right and that such proceeding would be a waste of time. He urged the necessity of a long discussion of the matter, the committee adjourned without arriving at any decision as to what action shall be taken in the matter.

His plea for a hearing Judge Gordon stated that he desired to bring several witnesses and a few documents which show the methods of police courts in other cities. He asked for but a limited time and expressed the opinion that the presentation of the side of the case would require only an hour or two. He urged the necessity of such a hearing and said that he felt confident he could disprove the charges made against him and save the expense of carrying the case into the courts.

His plea for a hearing Judge Gordon stated that he desired to bring several witnesses and a few documents which show the methods of police courts in other cities. He asked for but a limited time and expressed the opinion that the presentation of the side of the case would require only an hour or two. He urged the necessity of such a hearing and said that he felt confident he could disprove the charges made against him and save the expense of carrying the case into the courts.

City Attorney Connel was present at the meeting and asked Judge Gordon several questions, which threatened to bring about long controversy. Members of the council checked the arguments, however, and asked that all discussion of the case be confined to the method of procedure and not to the merits of the case. Judge Gordon made a positive denial of the charge made against him that he remitted fines after prisoners had pleaded guilty and paid their money to the clerk. He admitted that he had suspended fines and had accepted cash bonds, but he insisted that the former practice in Omaha has been accustomed to doing so and that the practice is general throughout the United States.

The judiciary committee, to which the case was referred last week, has not prepared a report. Only three members of the committee attended the meeting held with Judge Gordon yesterday and they refused to make any recommendation until the remaining two members of the committee have been consulted. It was suggested that the case go into executive session and decide whether Judge Gordon's request for a hearing should be granted, but this plan was defeated.

When the general committee adjourned the members of the judiciary committee were called to meet with City Attorney Connel this morning and it is likely that a report will be prepared for the regular council meeting tonight.

South Omaha News

Young Men's Republican Club Meeting. An important meeting of the Young Men's Republican club will be held at Blum's hall, evening of this week. President Beck made the request that every member attend, as considerable business of importance is to come up for discussion. Applications of about 150 young republicans for membership will be read and submitted for action. The club is growing rapidly and a great deal of interest is being manifested in the campaign.

Commissioner Thomas Injured. County Commissioner Thomas Hector had his left arm broken last evening while alighting from his buggy. As Mr. Hector was placing his foot on the step of his buggy he slipped and fell, and a great deal of interest is being manifested in the campaign.

TO PUT ALL OF THE MEN WHO HAVE BEEN TEMPORARILY LAID OFF AT WORK AGAIN

Export trade has been exceptionally dull for some time and the fact has tended to decrease the demand for labor. Expenses have been curtailed in all departments of the packing houses during the last two weeks, but the prediction now is that within a week or so there will be an unusual demand for labor. This condition of affairs is not unusual at this time of the year, as the demand for labor depends almost entirely on the receipts of live stock. While the receipts have been heavy, the majority of cattle and hogs have been sold as feeders and sent to the country, rather than to the city. This condition of affairs is not unusual at this time of the year, as the demand for labor depends almost entirely on the receipts of live stock. While the receipts have been heavy, the majority of cattle and hogs have been sold as feeders and sent to the country, rather than to the city.

Coal Contract Let. Last night the Board of Education let the contract for furnishing coal to the public school buildings to Cuddington & Wilcox. This firm bid \$2.55 for Ardmore mine run coal, \$4 for Ardmore lump coal and \$5.50 for the same quality of steam coal. As a customary the contract will hold good for the school year. A night school is to be established, commencing next Monday. Last year the night school was a success and Superintendent Wolfe considers it is a good plan to continue the same. Commencing with the charge of the school and he will be assisted by Joseph Ryan.

Secretary Brennan was instructed to advertise for bids for the heating of the new corrugated barn. Steam will be used and the specifications were had from Architect Davis. Brick laying on this school building will commence today.

A proposition was brought up to prepare plans for the building to be erected on the Hector site, but after taking the matter under advisement it was decided to postpone action until the next meeting.

City Extremely Orderly. Good order prevails in all portions of the city just now and the police have little to do. Under the active management of Chief Mitchell a great many undesirable residents have been required to seek other quarters. The tramps have a wholesome dread of Judge King and his pack pile and they are passing through South Omaha without stopping. Particular attention is being paid by the police to the protection of visiting stockmen and flumjam games are not permitted at all. Mayor Kelly is receiving many compliments on the personnel of the present police force, and Chief Mitchell is also being congratulated on the manner in which he handles the men placed at his disposal.

Men and Women, Young and Old, Should Study This Diagram. For about one person out of every five suffers from heart trouble, functional or organic, and nearly all such sufferers are misled as to the true nature of the malady until destructive changes have taken place. The early symptoms of HEART DISEASE are very misleading and the patient usually suspects nervous trouble, stomach trouble or some other disorder, when in reality it is most serious heart disease that is slowly and surely approaching. This fatal error may be avoided by a careful study of the following:

Early symptoms of heart disease are periodical headaches (Fig. 1), flushing of cheeks or face upon slight exertion (Figs. 2-3), fluttering of heart—palpitation—(Fig. 4) weakness of limbs at times (Fig. 5-5), shortness of breath upon slight exertion, irregular pulse, smothering spells, tendency to faint and pain in side. It is gratifying to know that a positive and permanent cure for heart disease has been found. The remedy is HUDYAN.

Men and Women Advised Free Write. HUDYAN corrects all the above symptoms, for HUDYAN strengthens the heart and rebuilds the broken down tissues. Men and women from all parts of the country have told how HUDYAN saved them from an early grave. HUDYAN regulates the heart's action. HUDYAN gives tone to the heart muscles. Stomach and liver disorders often cause functional heart disease. HUDYAN promptly cures HUDYAN cures are permanent. HUDYAN for sale by druggists—50c a package, or six packages for \$2.50. If your druggist does not keep HUDYAN, send direct to the HUDYAN REMEDY COMPANY, San Francisco, California. You may consult the HUDYAN doctors about your case FREE OF CHARGE. Write.

WARDENS OF THE BALLOT BOX

County Judge Begins Task of Appointing Election Officials. NEARLY TWO HUNDRED FILE APPLICATIONS. Many More Vacancies Are to Be Filled, However, Each Party Having Preference as It Secured Votes in Last Election.

The duty of selecting judges and clerks of election for the approaching contest in this county devolves by law upon County Judge Vinsonhaller. Something like 175 men have filed applications for appointment as judges and clerks of election. The number is swelling hourly. None of the campaign committees has filed lists of recommendations for these places, but such lists are being prepared. Judge Vinsonhaller says that he will be guided generally by the recommendations in making his selection of representatives of the numerous parties, except in cases where he is personally cognizant of the merits of the applicants himself, in which cases he will rely upon his own judgment.

He expects to appoint five judges and two clerks for each of the more than ninety election precincts in the city and three judges and two clerks in the forty or more precincts in the country. The judges and clerks in the city precincts will be entitled to receive \$5 a day each, being \$5 each from the county and school district, while the country officials will get but \$3 each.

The law provides that in the appointment of these election officials the county judge shall choose one judge from the political party that cast the highest number of votes in the last preceding election, one from the party that cast the next highest vote and one from the party that cast the third highest vote. If there be then any parties that

TOO LATE TO CLASSIFY. WANTED, 10 experienced retail clothing salesmen to go on the road with a traveling store, the Capital at Arcade Hotel, 3rd St. m. P. Bernstein. B-3133
